# The State University of New York

## About SUNY Korea

### Vision

To become a global higher education institution that leads to a new era

### Core Values

#### Shared Prosperity

- Equal learning opportunity for all, including the underprivileged
- Sharing knowledge and know-how's on Korea's successful industrial development

#### Global Entrepreneurship

- Nurturing students as entrepreneurs and promoting new venture capitalists
- Preparing students for challenge

#### Holistic Education

- Finding values, identities, and personal goals
- Training students to serve and share with others

#### Cross-cultural Experience

- Providing true cross-cultural education environment where number of foreign-based educational institutions are located
- Offering different SUNY Campus degrees in one campus

#### Imagination & Business Development

- Creating crossover platform & new business ecosystem
- Encouraging creativity

**SUNY Korea** was established in March 2012 as the first non-Korean university established on Korean soil. It is also the first university established in the Songdo Global University Campus (SGUC). Our degree programs are comparable to prestigious universities in the U.S. Students can enjoy both American-style college experience and dynamic Korean culture. We cherish moral values and strive to teach our students to serve others with humility and moral integrity. We also offer affordable on-campus housings, a wide variety of scholarships, opportunities to form a global network, and a well-balanced educational system to raise our students as competent and responsible leaders.

We are proud to have students with stellar academic achievements, but also looking for students with exceptional talents. We are also proud to say that our student body is a true reflection of global community, with over 30% of international students.

Currently, we are offering undergraduate and graduate degree programs from Stony Brook University (SBU), which is one of the biggest and the most recognized university within SUNY. These programs are identical to that of SBU and taught by SBU faculty. As a result, our students receive the same diploma issued by SBU upon their graduation. Every year, our University continues to expand its program offerings in a variety of academic fields such as engineering, fashion, science, and more.

We aspire to be the hub for global education, research, and innovation. To accomplish this, we will form partnerships with top corporations and continue doing our best to build global network with leaders and talents from across the globe.

## Why SUNY Korea

- ☞ Globally recognized for academic excellence
- ☞ U.S. degree awarded upon graduation
- ☞ Global network of talented individuals from all over the world
- ☞ Affordable education
- ☞ Well-balanced mix of American and Korean culture
- ☞ Preparation for an international career

## About SUNY

Established in 1816, the State University of New York is America's largest and most comprehensive state university system. It is comprised of 64 individual colleges and universities including Stony Brook, Buffalo, Binghamton, Albany, and the Fashion Institute of Technology. SUNY offers a wide variety of educational options including short-term vocational/technical courses as well as certificate, associate, baccalaureate, master's, doctoral and post-doctoral degree programs. SUNY provides access to almost every field of academic and professional study with about 7,351 degree and certificate programs.

SUNY alumni number over 2.5 million graduates, and many of them are accomplished scholars, scientists, and artists. They include Nobel laureates, Pulitzer Prize winners, and Grammy Award winners. As a result, SUNY is readily recognized as one of the most prestigious university systems in the world-both at home and abroad.

## About SBU

Founded in 1957, SBU ranked in the top 1 percent of all universities in the world by the London Times' "Higher Education-QS World University Rankings". SBU is a member of the prestigious Association of American Universities (AAU), an invitation-only organization of the best research universities in North America which includes Harvard, Princeton, Yale, MIT, as its members. Stony Brook's award-winning faculty includes three Nobel laureates-Robert Aumann, Paul Lauterbur, and C.N. Yang-in the field of economy, medicine, and physics respectively. Our current faculty in Mathematics Laboratory, Dr. John Miller, received the Fields Medal, which is considered as the "Nobel Prize" in the field of mathematics.

Stony Brook alumni are leaders in their respective fields including the 10th President of Stanford University John L. Hennessy and the CEO of IMAX Corporation Richard Gelfond. The most renowned Korean alumnus is Myung Oh who was the former Ministry of Science and Technology.

## President's Message

ChoonHo Kim, President

As the President of SUNY Korea, I am deeply honored to introduce to you our University. SUNY Korea is the first American university established in Korea. With faculties from Stony Brook University and students from all over the world, we are striving to play the key role in making SUNY Korea the hub of global education, knowledge, and innovation. SUNY Korea is committed to providing quality education to all our students for the benefit of the global community, and is dedicated to raising global leaders who can help you realize this dream. What SUNY Korea ultimately aspires to achieve is global shared-prosperity. I strongly believe that SUNY Korea is called to undertake a special role in bridging countries and industries together to seek shared-prosperity and live in harmony.

Choosing a university is one of the most important decisions you will make. I hope this brochure will help you in learning more about SUNY Korea and I cordially invite you to join our exciting journey to change the world as History Makers. Thank you.

## What We Do For You

Fred Phillips, Dept. Chair

### *Department of Technology & Society*

#### **Raising Convergence Experts in Management and Technology to Lead the World**

The Department of Technology & Society (DTS), one of the seven departments in the College of Engineering and Applied Sciences at SBU, applies concepts and tools drawn from natural sciences, engineering, and social sciences to examine and enhance the relationship between technology and our society, both regionally and globally. DTS programs at SUNY Korea include special lectures by leading professionals, specialists in problem solving, and the CEOs of prominent industries from Korea and abroad. It also holds international forums with SUNY students in the U.S., and these educational opportunities will enable our students to grown into global leaders in the era of convergence and globalization.

Klaus Mueller, Dept. Chair

### *Computer Science Department*

#### **Leading the World of Information Technology to Create Future**

The Computer Science (CS) Department at SBU has an excellent reputation, as evidenced by the recent survey conducted by the National Research Council (NRC), which placed the SBU CS program as one of the top 20 most sought after CS programs in the U.S. A select number of qualified students who apply for the doctoral program in the CS Department at SUNY Korea are given full scholarship (support for full tuition and on-campus room & board fees) and support for monthly living expenses. Students majoring in CS at SUNY Korea enjoy a great opportunity for synergetic educational collaboration between SBU, an internationally acclaimed research and education center in computer science and Korea, a globally reputed IT powerhouse.

# Scholarship Opportunities and Holistic Education

## **Fair educational opportunities for all** – *Shared Prosperity*

SUNY Korea is committed to recognizing and rewarding excellent students. Our scholarship system strives to give equal educational opportunities for all, especially to those underprivileged students who have passion for learning and pursuing their dreams, but are in need of financial aids. These scholarships are available for both new and current students. Some of our scholarships are merit based but we also grant scholarships to students who demonstrate special talents, leadership skills, community service, and financial needs.

SUNY Korea will provide equal educational opportunities that transcend nationalities and circumstances to create stepping-stone for shared prosperity for all. We will spare no effort in providing the best opportunity possible for anyone in need of education.

## **What will we teach as a university?** – *Holistic Education*

SUNY Korea recognizes that the number of serious social problems in today's society comes from the emphasis on intellectual education and the absence of character education. The absence of character education has led to the problems of adolescence and young adults. In response to this, we daringly started investing in holistic education.

### **1. Residential College (RC) Program**

Following the footsteps of prestigious universities such as Harvard and Oxford, SUNY Korea has started its RC Program that aims to solve the conflict that arises from the imbalanced development of one's ability and character. We educate our students to become self-aware of one's worth and live with the right values and visions. In the four-year curriculum, they participate in various RC Programs to find their own value and vision, and learn about ethics and justice. Our students reside with our faculties, staff, and classmates in dormitories, and will naturally learn about community life, sharing, and being considerate.

### **2. Special Guest Speaker Lectures**

SUNY Korea regularly invites corporate CEOs and experts in specialized fields as our guest speakers. Through their special lectures, our students have the opportunity to hear about their vivid life stories of success and failures, and how they overcame hardships. These indirect experiences will enable our students learn to build various virtues to develop into future leaders.

Through the RC Programs and Special Guest Speaker Lectures, SUNY Korea nurtures its students to possess both outstanding ability and character. We will bring out the best in our student's potentials.

**SUNY KOREA  
ADMISSION  
INFORMATION**

# Undergraduate Admission

## 1. Admission Process

- Online application: [apply.sunykorea.ac.kr](http://apply.sunykorea.ac.kr)
- Application fee: 50USD (non-refundable)
- All required documents must be sent to:  
SUNY Korea Student Recruitment & Admissions  
Academic Building, Rm. A201  
119 Songdo Moonhwa-Ro, Yeonsu-Gu  
Incheon, Korea 406-840

## 2. Application Deadline

- Spring 2015: 10/31/2014 (Early decision)  
12/15/2014 (For non-Korean applicants, due to Visa issue)  
01/15/2015 (Final admission)
- Fall 2015: 01/31/2015 (Early admission)  
04/30/2015 (Final admission)
- \* Late application can be considered on a space-available basis

## 3. Majors

- Computer Science
- Technological Systems Management
- Mechanical Engineering

## 4. Required Documents

- SUNY application (online submission only)
- Official high school transcript in English
- Letter(s) of recommendation(s)  
(Must be in English / Signed, sealed and sent directly by the recommender)
- Official TOEFL (80 or above), IELTS (6.5 or above, academic), or SAT CR (430 or above) score  
(for those whose native language is not English)
- SAT or ACT (Required for U.S. high school graduates, otherwise optional)  
※ All official test scores must be reported directly from the testing agency  
[Institution Code (SAT: 7442 / TOEFL: 7499 / ACT: 2952)]
- Financial statement of acknowledgement: For applicants who are not U.S. citizens or permanent residents  
(Available at [www.sunykorea.ac.kr](http://www.sunykorea.ac.kr))
- All submitted documents will not be returned

## 5. For More Information

- Online Q&A: [www.sunykorea.ac.kr/admission-qa](http://www.sunykorea.ac.kr/admission-qa)
- E-mail: [admission@sunykorea.ac.kr](mailto:admission@sunykorea.ac.kr)
- Phone: +82.32.626.1114

# Graduate Admission

## 1. Admission Process

- Submit online application: [apply.sunykorea.ac.kr](http://apply.sunykorea.ac.kr)
- Application fee: 100 USD (non-refundable)
- Prepare all required documents and send them directly to the admissions office:

Computer Science	Technology & Society
Stony Brook University Dept. of Computer Science, Graduate Admission Office Stony Brook, NY 11794-4400 U.S.A.	Stony Brook University Dept. of Technology and Society (Attn: Joyce Flynn) Harriman Hall, Rm. 347A Stony Brook, NY 11794-3760 U.S.A.

\* Be sure to indicate if you are applying for M.S. or Ph.D.

## 2. Application Deadline

- Spring 2015: 01/15/2015
- Fall 2015: 04/30/2015

## 3. Majors

- Computer Science : M.S. and Ph.D. in Computer Science (CS)
- Technology & Society : M.S. in Technological Systems Management (TSM)  
Ph.D. in Technology, Policy and Innovation (TPI)

## 4. Required Documents

- Application (online submission only)
- Two (2) official transcripts in English for each institution attended beyond secondary school
  - The transcript in Bachelor's degree should show a grade average of at least B. (i.e., 3.0 / 4.0)
  - Computer Science requires a Bachelor's degree in Computer Science or related fields
- Three (3) recommendation letters from academia or industry
- Official GRE score (Stony Brook University Institution Code: 2548)
- Official TOEFL or IELTS score (**Required for non-native English speakers**  
/ Stony Brook University Institution Code: 2548)
  - M.S.: TOEFL iBT 85 (IELTS 6.5) or above
  - Ph.D.: TOEFL iBT 90 (IELTS 6.5) or above
- Additional documents may be requested upon acceptance (i.e., visa application documents)
- All submitted documents will not be returned.
